Biography:

I studied at the Fine Arts School of Clermont-Ferrand where I obtained my diploma with the congratulations of the Jury in 2000. This diploma certifies five years of a painting work based on the appropriation / diversion of images from communication, architecture or signage. After participating in several group exhibitions, my professional career has turned to interactive graphic design and animation, especially for video games, as Art Director. During this period, I participated in several collaborative projects with artists. I have also produced personal and commissioned animation series selected in several festivals such as the International Short Film Festival of Clermont-Fd and the International Animation Festival of Annecy. Since some years, I work as freelance illustrator, artist and teacher.

Personnal and group exhibitions:
